ABOUT US

Bhaktivedanta Institute is a non-profit organization working for the synthesis of science and religion for the benefit of humanity. Our goal is to have spiritual reality accepted and incorporated into scientific research and advancements, and to have scientific principles and methods integrated into the practice of spirituality. Bhaktivedanta Institute is a center for advanced studies in science and spirituality focusing on a consciousness based paradigm of Vedanta to resolve the mind-body problems, the questions of evolution, origin of life and the universe and many other philosophical, ethical and moral human concerns. The institute also promotes scientific, philosophical and religious dialogue among scientists, scholars and religionists of the world covering various common conceptual grounds of science and religion for the purpose of creating a better and harmonious understanding among all the people.

Founded in 1974, Bhaktivedanta Institute has made unparalleled efforts in bridging science and spirituality. The institute has organized numerous conferences, symposiums, seminars and workshops in various educational and research institutes throughout the country and abroad.

FOUNDER DIRECTOR

Dr. T. D. Singh

(His Holiness Bhaktisvarupa Damodara Swami)

*Physical Organic Chemist
University of California*

Dr. T. D. Singh received his PhD in Physical Organic Chemistry from the University of California at Irvine in 1974. He is a scientist and spiritualist known for his pioneering efforts in synthesizing science and religion for a deeper understanding of life and the universe.

He has many contributed papers in the *Journal of American Chemical Society* and the *Journal of Organic Chemistry* in the field of fast proton transfer kinetics in model biological systems using stopped flow technique and NMR spectroscopy. He also worked on gas phase reaction mechanisms using Ion Cyclotron Resonance (ICR) spectroscopy.

He was trained in Vaishnava Vedanta studies from 1970 to 1977 under Srila Prabhupada and was appointed Director of the Bhaktivedanta Institute in 1974. He has organized four International Conferences on science and religion - First and Second World Congress for the Synthesis of Science and Religion (1986 & 1997), First International Conference on the Study of Consciousness within Science (1990), and Second International Congress on Life and Its Origin (2004). Collectively thousands of prominent scientists and religious leaders including several Nobel laureates participated. He has authored and edited several books including *Thoughts on Synthesis of Science and Religion* (2001), *Savijnanam - Scientific Exploration for A Spiritual Paradigm* (Journal of The Bhaktivedanta Institute), *Tattvajijnasa - Magazine of The Bhaktivedanta Institute*, *Vedanta and Science Series: Life and Origin of The Universe* (2004), *Science, Spirituality and The Nature of Reality* (2005), *Life and Spiritual Evolution* (2005), and *Essays on Science and Religion* (2005). Dr. T. D. Singh departed for the spiritual abode on 2nd October 2006.

Seminar on Curiosity, Creativity, Contemplation and Culture

June 9, 2023

Bhaktivedanta Institute, Bangalore, India

CURIOSITY CREATIVITY CONTEMPLATION & CULTURE

Abstract:
The beauty of science and scientific study of engineering is that it has got inherent potencies to inculcate some of the precious human values unto the student who has decided to pursue it. In this talk we will bring out some of the traits which a student needs the most and we will see how such kind of traits has been cultivated or nurtured by the great scientists. In this talk we will further find out the wisdoms from ancient Indian knowledge system with respect to these qualities and understand how such qualities can be cultured being as a student of engineering or science.
