

About the Author

Amit Goswami, PhD is professor emeritus in the physics department of the University of Oregon, Eugene, OR where he has served since 1968. He is a pioneer of the new paradigm of science called science within consciousness. Goswami is the author of the highly successful textbook Quantum Mechanics. His two volume textbook for nonscientists *The Physicist's View of Nature* traces the decline and rediscovery of the concept of God within science.

Goswami has also written eight popular books based on his research on quantum physics and consciousness. In his seminal book, *The Self-Aware Universe*, he solved the quantum measurement problem elucidating the famous observer effect while paving the path to a new paradigm of science based on the primacy of consciousness. Subsequently, in *The Visionary Window*, Goswami demonstrated how science and spirituality could be integrated. In *Physics of the Soul*, he developed a theory of survival after death and reincarnation. His book *Quantum Creativity* is a tour de force instruction about how to engage in both outer and inner creativity. Goswami's book, *The Quantum Doctor* integrates conventional and alternative medicine. His latest books, *GOD IS NOT DEAD* and *QUANTUM EVOLUTION* establish the existence of God within science.

Goswami's books have been translated in nine foreign languages.

Goswami has been featured in the very successful film "What the Bleep do we Know?" and the award-winning documentary "Dalai Lama Renaissance."

Goswami regularly teaches in the distance learning institutions Holmes Institute in Golden, CO, Philosophical Research University in Los Angeles, CA, and International Quantum University for Integrative Medicine. He also teaches regularly at Krotona Theosophical Society, Ojai, CA and Seed Graduate Institute, Albuquerque, NM.

Amit Goswami is a popular spokesperson for the new paradigm. In 2007 and 2008 alone, he gave invited lectures at the International conference on Osteopathy in Berlin, Germany, the conference on subtle energy in Boulder, CO, the International conference on consciousness “I am You are,” in Wurzburg, Germany, the Behavioral Medicine conference in Hiltonhead, SC, the Spiritist Medical Congress in Fort Lauderdale, FL, and the International conference on Energy Psychology in Toronto, Canada.

Goswami is the 2008 recipient of the DANAM award.

In his private life, Goswami is a practitioner of spirituality and transformation. He calls himself a quantum activist.
