Wilson College, Mumbai University, Mumbai-400007

Abstract

In this essay, the terms “scientific temper” and “spiritual wisdom” have been discussed and the reasons for the need to have both of them have been cited. There are situations highlighted which show that science and spirituality go hand in hand which are supported by the quotes of eminent persons. Further, the Vedantic view for this transcendentalism is also given. The present day scenario of India is also discussed. Finally, the essay concludes with the thoughts that can be achieved with the balance of scientific temper and spiritual wisdom.

¹ This paper is the essay by the first prize winner of the All India Students' Essay Competition on the topic, “India Should Focus on a Balanced Growth of Scientific Temper and Spiritual Wisdom”.
