

About the Author

Dr. Debashis Khan received his PhD degree in Mechanical Engineering from IIT Kharagpur in 2007. After completing his study at IIT Kharagpur, he has joined as a Lecturer in the Department of Mechanical Engineering at Institute of Technology – Banaras Hindu University, Varanasi. His research interests include analytical and computational methods in engineering and science, continuum mechanics, plasticity, fracture mechanics. Current research activities also include modeling of fracture and failure of composites etc.
