

About the Authors

Prabhakar Ballapalle is presently Sr. Fw. Dev. Eng at LSI Research, Bangalore. He received his M.Tech from IIT Kanpur, in the field of Digital Signal Processing. He has previously served Central Research Laboratory as Member, Research Staff. He has more than 10 publications for his credit. He is very actively involved in promoting the discussions on science & spirituality among the student's community and learned circles. His research interests include Video Signal processing, Pattern Recognition, Statistical Signal Processing and Audio signal processing.

Kali Charan Nayak has completed M.E (Computational Heat Transfer and Fluid dynamics) from IISc Bangalore in 2003. He is working in GE India Technology Center for last 5 years as a lead engineer for GE aircraft engine design and development. He has more than 5 publications for his credit. Currently he is pursuing his PHD in IISc Bangalore thru GE sponsorship. He is very actively involved in promoting the discussions on science & spirituality among the student's community and learned circles. His fields of interest include CFD, gas turbine heat transfer, propulsion and cosmology.

Ajeet K Mall has done his M.Tech from Indian Institute of Science, Bangalore in 2002. He presently works for Analog Devices India, Bangalore, India as a Technical Leader and is involved in design and implementation of signal processing algorithms. He has published articles in the leading magazines and presented the papers in international conferences. His interest lies in the synthesis of Science and Spirituality.
