

About the Author

Dr. Debashis Khan received his Ph.D. degree in Mechanical Engineering from Indian Institute of Technology Kharagpur in 2007. After completing his study at IIT Kharagpur, he has joined as an Assistant Professor in the Department of Mechanical Engineering at Indian Institute of Technology (BHU) Varanasi. His research interests include analytical and computational methods in engineering and science, continuum mechanics, plasticity, fracture mechanics. In order to have a better understanding of the origin of life and universe, Dr. Khan has started working in the area of synthesis of science and spirituality. Dr. Khan has been trained in the area of science and spirituality by Dr. T. D. Singh (Srila Bhaktisvarupa Damodara Swami), a well known authority on Vedanta and Science.
