

## About the Author

Prof. Sandeep Kumar is a Professor in the Department of Mechanical Engineering, IIT (BHU) Varanasi. He received Bachelor degree from MNREC Allahabad, Mastersdegree from IT BHU and Ph.D. degree from IIT Delhi. His field of interest is computational mechanics particularly finite element method and wavelets. At present, he is working on wave propagation. He has published papers in international journals in the areas of Composite Plates and Shells, Nonlinear Dynamics and Chaos, Element Free Galerkin Method, Advection Dispersion Equations, etc. He is working and completed various government funded projects.
