ABOUT US

Bhaktivedanta Institute is a non-profit organization working for the synthesis of science and religion for the benefit of humanity. Our goal is to have spiritual reality accepted and incorporated into scientific research and advancements, and to have scientific principles and methods integrated into the practice of spirituality. Bhaktivedanta Institute is a center for advanced studies in science and spirituality focusing on a consciousness based paradigm of Vedanta to resolve the mind-body problems, the questions of evolution, origin of life and the universe and many other philosophical, ethical and moral human concerns. The institute also promotes scientific, philosophical and religious dialogue among scientists, scholars and religionists of the world covering various common conceptual grounds of science and religion for the purpose of creating a better and harmonious understanding among all the people.

Founded in 1974, Bhaktivedanta Institute has made unparalleled efforts in bridging science and spirituality. The institute has organized numerous conferences, symposiums, seminars and workshops in various educational and research institutes throughout the country and abroad.

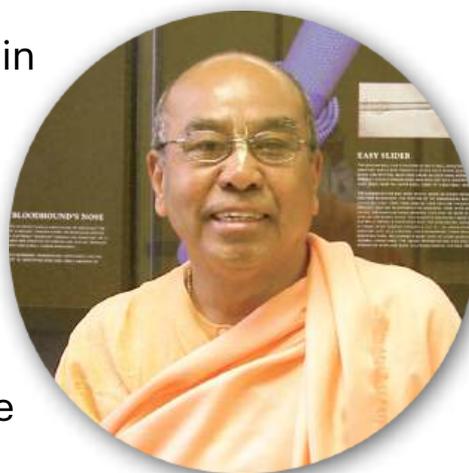

FOUNDER DIRECTOR

Dr. T. D. Singh

(His Holiness Bhaktisvarupa Damodara Swami)

*Physical Organic Chemist
University of California*

Dr. T. D. Singh received his PhD in Physical Organic Chemistry from the University of California at Irvine in 1974. He is a scientist and spiritualist known for his pioneering efforts in synthesizing science and religion for a deeper understanding of life and the universe.

He has many contributed papers in the *Journal of American Chemical Society* and the *Journal of Organic Chemistry* in the field of fast proton transfer kinetics in model biological systems using stopped flow technique and NMR spectroscopy. He also worked on gas phase reaction mechanisms using Ion Cyclotron Resonance (ICR) spectroscopy.

He was trained in Vaishnava Vedanta studies from 1970 to 1977 under Srila Prabhupada and was appointed Director of the Bhaktivedanta Institute in 1974. He has organized four International Conferences on science and religion - First and Second World Congress for the Synthesis of Science and Religion (1986 & 1997), First International Conference on the Study of Consciousness within Science (1990), and Second International Congress on Life and Its Origin (2004). Collectively thousands of prominent scientists and religious leaders including several Nobel laureates participated. He has authored and edited several books including *Thoughts on Synthesis of Science and Religion* (2001), *Savijnanam - Scientific Exploration for A Spiritual Paradigm* (Journal of The Bhaktivedanta Institute), *Tattvajijnasa - Magazine of The Bhaktivedanta Institute*, *Vedanta and Science Series: Life and Origin of The Universe* (2004), *Science, Spirituality and The Nature of Reality* (2005), *Life and Spiritual Evolution* (2005), and *Essays on Science and Religion* (2005). Dr. T. D. Singh departed for the spiritual abode on 2nd October 2006.

CONFERENCES

12th AISSQ Conference
Science & Spiritual Quest

January 21-23, 2022

@ Online Mode

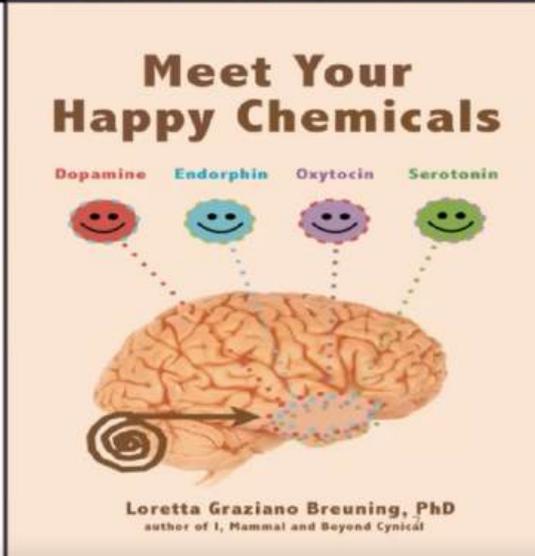

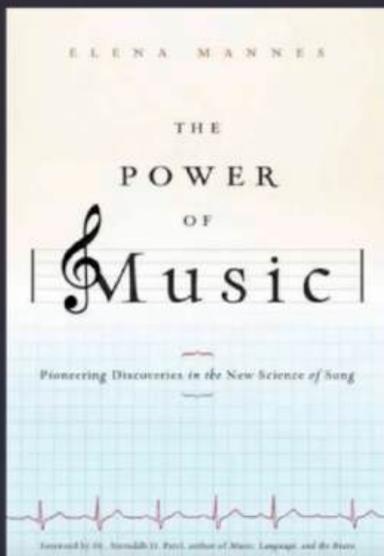

Bhaktivedanta Institute has been organizing for the past 15 years, its series of conferences under the head of AISSQ. The series was conceptualised by Dr. T. D. Singh (His Holiness Bhaktisvarupa Damodara Swami), the founder director of Bhaktivedanta Institute. Dr. Singh had lots of concern for the student community with regard to their holistic development.

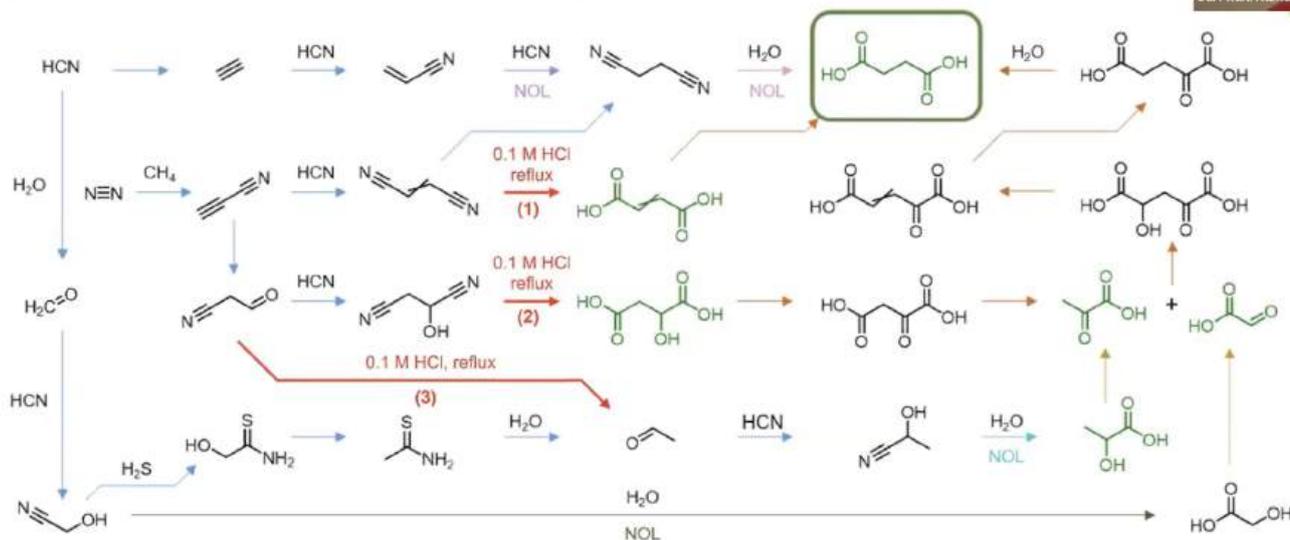

Photo Gallery

Effect of Music on brain function

- In her book, *The Power of Music*, Elena Mannes argues that music has such a profound effect on our brain that it could even be used to treat patients suffering from major nervous system disorders such as Parkinson's.
- But it can also be used much earlier on in life to develop children's neurological development:

Network of prebiotic chemistry

Subnetwork of reactions that lead to succinic acid and involve synthesis of lactic, pyruvic, malic, fumaric and glyoxylic acids (molecules indicated in green are biotic). Red arrows describe the previously unreported connections which are now verified experimentally by the authors. NOL indicates reactions reported outside of OL research but carried out under prebiotic conditions.

Wolos et al. Science 369, 1584 (2020)

How we practice EOL?

- Healthcare professionals should act on the principles of respect for autonomy, beneficence, non-maleficence, and justice
- Specific components of ethical conflict can usually be identified
- There is a process for resolving ethical conflicts
- Consensus from the healthcare team facilitates consistent communication and documentation and minimizes liability
- Life support may be withdrawn, but care is never withdrawn at the end of life

Student - 50\$ | Professional - 150\$

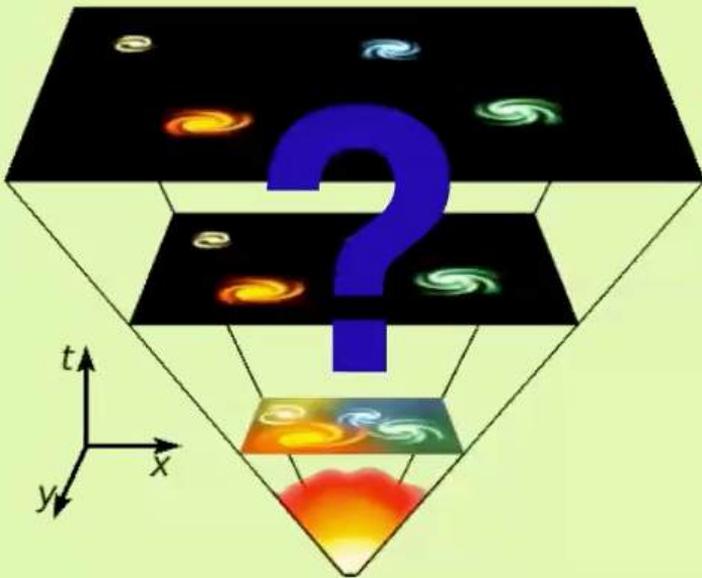

Spirituality is the Post-Graduate study of religion, one should rise from religion to spirituality.

- Dr. A P J Abdul Kalam

Photo Gallery

E: Unanswered questions

Big Bang Model [4]

- ✓ Science always addresses the question “How?”
- ✓ Science fails to address the question “Why?”, as the question is not the starting point of scientific methods.

G: Fundamental Unknowability

$$\Delta x \cdot \Delta p \geq \frac{h}{2}$$

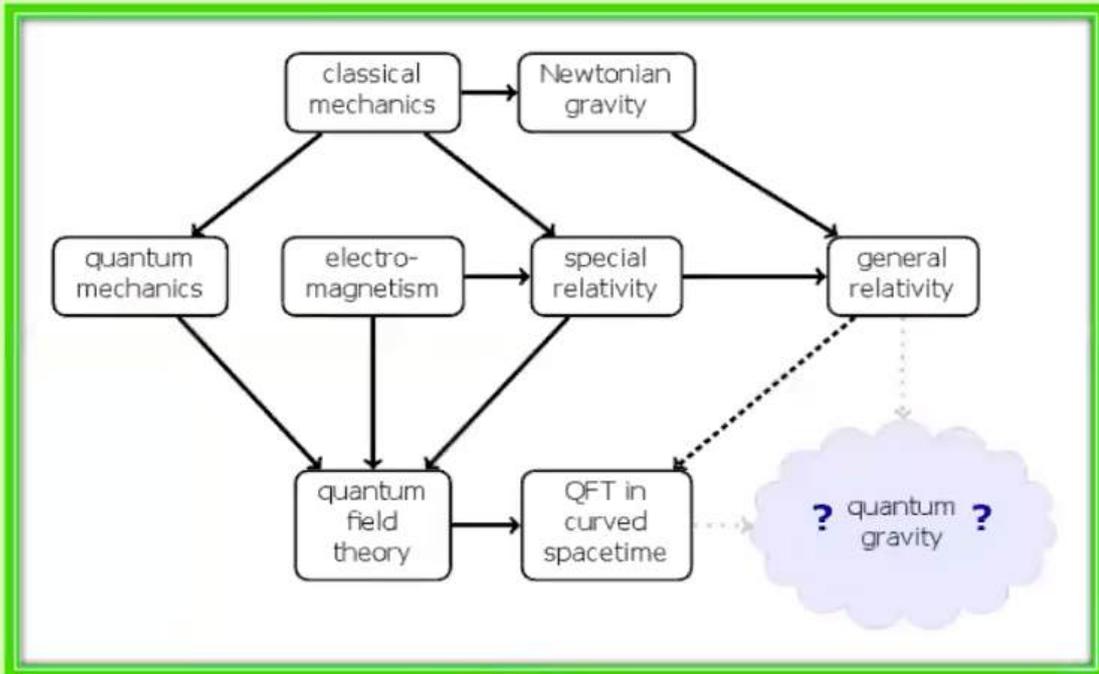

Uncertainty principle (1927) postulated by Heisenberg

All consistent axiomatic formulations of number theory include **undecidable** propositions

Gödel's **Incompleteness** Theorem (1931)

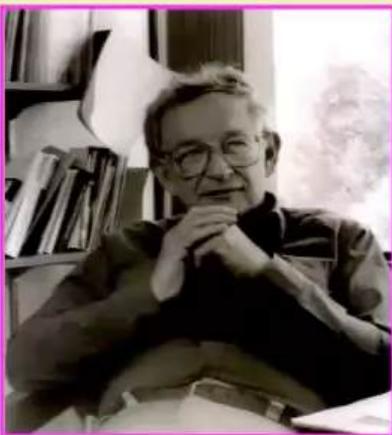

The unknowability of scientific methodology is demonstrated in some of the fundamental postulates on which modern science is built.

C: Theory of Everything – Not even a remote possibility

Quantum Gravity [2]

D: Scientific Discoveries are Discontinuous maps of human creativity

Prof. P. W. Anderson
Nobel Laureate in Physics [3]

“At each stage (in science), entirely new laws, concepts and generalizations are necessary, requiring creativity and inspiration to just as a great degree as in the previous one. Psychology is not applied biology, nor is biology applied chemistry.”

How to avoid negative thinking? - conventional approaches

Speculative Approaches: Negation is the best alternative based on limited experience in psychiatric research.

Meditation: Thoughtlessness is the best alternative based on limited experience in practice.

Conventional Approaches are restrictive: Try something based on experience and after that try something else (Logic based experience for the search towards better mental state)

There should be something better than trying everything. That is being indicated by Vedanta as Sabda (Direct Perception of the Self)

Holistic Time Management: Summary

Personal Time Management

+

Group Time Management

=

Holistic Time Management

- **Personal**
 - Job to be inline with Innate Nature
 - Don't waste time on unprofessional activities
- **Group:** Respect others time
 - Contribute positively to others Time
 - Avoid wasting others time
 - Align your time with groups requirement
- **Make others learn through**
 - Sincerity, Determination
 - Personal Behavior
- **Sincerely appreciate and acknowledge**
 - Others unique contributions

Millindar Segar a.k.a Madhur Krishna Das

One needs to be Right frame of Mind..... All the Time

- Clarity of Thoughts.....requires
- Clarity of Mind.....requires
- Higher Intelligence.....requires
- Leap of Consciousness.....requires

An evolved Consciousness will lead one to understand :

- The importance of time.
- The Time spent on what one likes to do
- The Time spent on what one is supposed to do

Bhaktivedanta Institute on Wheels

Promoting a dialogue between Science and Spirituality

For a rigorous advancement of science and spirituality dialogue, Bhaktivedanta Institute custom-made motorhome/bus dedicated fully to extensively promote science and religion dialogue all over the Indian subcontinent.

The motorhome, self sufficient in containing own mini library, sleeping room, small dining/discussion room, and kitchen approach every school, college and university in India and present about the constructive dialogue between science and religion.

Wherever the motorhome go receives a warm welcome. Truly, it is indicative of a growing recognition of the importance of science and religion dialogue in the contemporary world of science and technology.

Till date, BHIMA reached almost:

Over 600,000 people,

Almost 280 colleges and universities

More than 500 cities and towns of India, and

**Distributed over 9000 books on
Science and Religion.**

Quotes

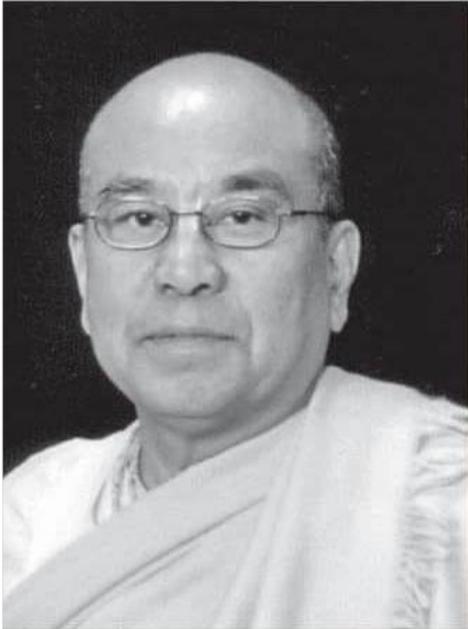

Every Week

@ *Bhaktivedanta Institute, Kolkata*

Synthesis of
**SCIENCE &
SPIRITUALITY**

Weekly Quotes

Dr. T. D. Singh
(1937 – 2006)

55
One must be willing to admit one's own mistakes, one's own follies, voluntarily. This is the beginning of spiritual culture.

— **Dr. T. D. Singh**

Lecture at France, June 13th, 1992 .

**SCIENCE &
SPIRITUALITY**

Weekly Quotes

Wernher von Braun
(1912-1977)
Founder of Astronautics

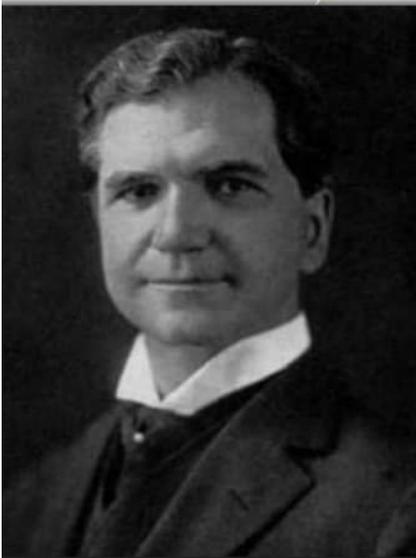

“Certainly there are those who argue that the universe evolved out of a random process, but what random process could produce the brain of a man or the system of the human eye?

— **Wernher von Braun**

von Braun, Wernher, Letter to the California State Board of Education, Read by Dr. John Ford to the California State Board of Education on September 14, 1972.

Ralph Waldo Trine
(1866-1958)
American philosopher

55

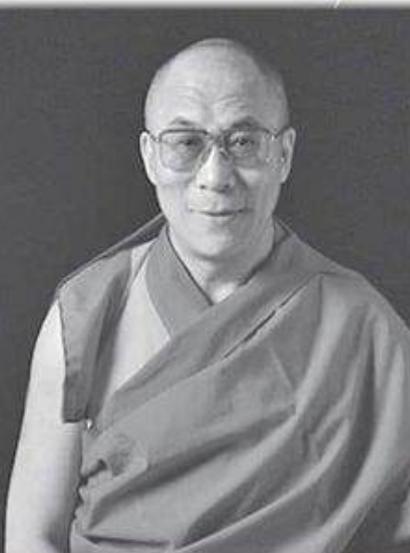

It is the realm of the inner life that we should wisely give more attention to. The springs of life are all from within. We must make the right mental condition, and we must couple it with faith and expectancy.

— **Ralph Waldo Trine**

Ralph Waldo Trine, *My Philosophy and My Religion*,

BHAKTIVEDANTA INSTITUTE | KOLKATA

His Holiness The Dalai Lama
(1935-)
Nobel Laureate in Peace

55

In this century we have made remarkable material progress, but basically we are the same as we were thousands of years ago. Our spiritual needs are still very great.

— **His Holiness The Dalai Lama**

Margaret Gee, *Words Of Wisdom: Quotes by His Holiness the Dalai Lama*,
Andrews McMeel Publishing, 2001, p. 24

BHAKTIVEDANTA INSTITUTE | KOLKATA

Sigrid Undset
(1882–1949)

Nobel Laureate in Literature

“Floating in the infinite personality of God, the human personality rests, an infinitesimal speck in infinity just as the earth is a speck in the part of the universe which our knowledge can comprehend.

— Sigrid Undset

Sigrid Undset, *On Saints and Sinners, Proceedings of the Wethersfield Institute*, Volume 6, pp. 232-272. Ignatius Press. San Francisco, CA.

BHAKTIVEDANTA INSTITUTE | KOLKATA

Dr. T. D. Singh
(1937 – 2006)

Founding Director of
Bhaktivedanta Institute

“A true religious principle is a gift of the Supreme Being, God, to humanity revealed through saintly persons. Such a gift will enable a sincere person prepare himself or herself to revive his or her original spiritual identity.”

— Dr. T. D. Singh

The Science of Interreligious Dialogues, Bhaktivedanta Institute, 2008, p. 27.
